

PUBLICATION LIST

Claudie DOUMS,
Directrice d'Etudes EPHE

1. **Doums C**, Fédérici P, Chifflet-Belle P, Monnin T. 2018. Worker thelytoky allows requeening of orphaned colonies but increases susceptibility to reproductive cheating in an ant. **Animal Behaviour**, 135 : 109-119.
2. Monnin T, Helft F, Leroy C, d'Etorre P. **Doums C**. 2018. Chemical characterization of young virgin queens and mated egg-laying queens in the ant *Cataglyphis cursor*. **Journal of Chemical Ecology**, 44 : 127-136.
3. Molet M, Péronnet R, Couette S, Canovas C, **Doums C**. 2017. Effect of temperature and social environment on worker size in the ant *Temnothorax nylanderii*. **Journal of Thermal Biology**. 67 : 22-29.
4. Colin T, **Doums C**, Péronnet R, Molet M. 2017. Decreasing worker size diversity does not affect colony performance during laboratory challenges in the ant *Temnothorax nylanderii*. **Behavioral Ecology and Sociobiology** 71 : 92.
5. Boulay R, Aron S, Cerdà X, **Doums C**, Graham P, Hefetz A, Monnin T. 2017. Social life in arid environments: the case study of *Cataglyphis* ants. **Annual Review of Entomology**, 62 : 305-321.
6. Cronin A, Monnin T, Sillam-Dussès D, Aubrun F, Fédérici P, **Doums C**. 2016. Qualitative bias in offspring investment in a superorganism is linked to dispersal and nest inheritance. **Animal Behavior** 199 : 1-9.
7. Amor F, Villalta I, **Doums C**, Angulo E, Caut S, Castro S, Cerdá X, Boulay R. 2016. Nutritional versus genetic correlates of caste differentiation in a desert ant. **Ecological Entomology**. 41 : 660-667
8. Cronin A, Chifflet-Belle P, Fédérici P, **Doums C**. 2016. High inter-colonial variation in worker nestmate relatedness and diverse social structure in a desert ant from Mongolia. **Insectes Sociaux** 63 : 87-98.
9. Helft F, **Doums C**, Monnin T. 2016. No evidence of pre-copulatory mate choice by gynes in the facultatively parthenogenetic ant *Cataglyphis cursor*. **Insectes Sociaux** 63 : 199-201.
10. Helft F, Monnin T, **Doums C**. 2015. First Evidence of inclusive sexual selection in the ant *cataglyphis cursor*: worker aggressions differentially affect male access to virgin queens. **Ethology** 121 : 1-10.
11. Westhus C, Ugelvig LV, Tourdot E, Heinze J, **Doums C**, Cremer S 2014 Repeated brood care improves anti-pathogen defense in the ant *Platythyrea punctata*. **Behavioral Ecology and Sociobiology** 68, 1701-1710.
12. **Doums C**, Ruel C, Clémencet J, Fédérici P, Cournault L, Aron S. 2013. Fertile diploid males in the ant *Cataglyphis cursor*: a potential cost of thelytoky? **Behavioral Ecology and Sociobiology**, 67, 1983-1993.
13. **Doums C**, Cronin AL, Fédérici P, Haussy C, Tirard C, Monnin T. 2013. Facultative use of thelytokous parthenogenesis for queen production in the polyandrous ant *Cataglyphis cursor*. **Journal of Evolutionary Biology** 26, 1431-1444.
14. Cronin AL, Molet M, **Doums C**, Monnin T, Peeters C. 2013. Recurrent evolution of dependent colony foundation across eusocial insects. **Annual Review of Entomology**, 58, 37-55.
15. Helft F, Tirard C, **Doums C**. 2012. The effects of division of labour on phenoloxidase based immunity in workers of the ant *Cataglyphis cursor*. **Insectes sociaux**, 59, 333-340.
16. Cronin AL, Fédérici P, **Doums C**, Monnin T. 2012. The influence of intraspecific competition on resource allocation during dependent colony foundation in a social insect. **Oecologia**, 168, 361-369.

17. Cronin A, Monnin T, Haussy C, **Doms C**. 2011. Opportunities for mate choice in the fission performing ant *Cataglyphis cursor*. **Ecological Entomology**, **36**, 522-525.
18. Chéron B, Monnin T, Fédérici P, **Doms C**. 2011. Variation in patriline reproductive success during queen production in orphaned colonies of the thelytokous ant *Cataglyphis cursor*. **Molecular Ecology**, **20**, 2011-2022.
19. Chéron B*, Cronin AL*, **Doms C**, Haussy C, Tirard C, Monnin T. 2011. Unequal resource allocation among colonies produced by fission in the ant *Cataglyphis cursor*. **Ecology**, **92**, 1448-1458. * Co-premier auteur
20. Clémencet J, Cournault L, Odent A, **Doms C**. 2010. Worker thermal tolerance in the thermophilic ant *Cataglyphis cursor*. **Insectes Sociaux**, **57**, 11-15.
21. Chéron B, **Doms C**, Fédérici P, Monnin T. 2009. Queen replacement in the monogynous ant *Aphaenogaster senilis*: supernumerary queen as life insurance. **Animal Behaviour**, **78**, 1317-1325.
22. Monnin T, Cini A, Lecat V, Fédérici P, **Doms C**. 2009. No actual conflict over colony inheritance despite high potential conflict in the social wasp *Polistes dominulus*. **Proceedings of the Royal Society of London B**, **276**, 1593-1601.
23. Galarza, JA, Boulay R, Cerdá X, **Doms C**, Federici P, Magalon H, Monnin T, Rico C. 2009. Development of single sequence repeat markers for the ant *Aphaenogaster senilis* and cross-species amplification in *A.iberica*, *A.gibbosa*, *A.subterranea* and *Messor maroccanus*. **Conservation Genetics**, **10**, 519-521.
24. Bocher A, **Doms C**, Millot L, Tirard C. 2008. Reproductive conflicts affect labour and immune defence in the queenless ant *Diacamma 'nilgiri'*. **Evolution**, **62**, 123-134.
25. Clémencet J, Rome Q, Fédérici P, **Doms C**. 2008 Aggressions and size-related fecundity of queenless workers in the ant *Cataglyphis cursor*. **Naturwissenschaften**, **95**, 85-175. (IF = 2.1)
26. Bocher A, Tirard C, **Doms C**. 2007. Phenotypic plasticity of immune defence linked with foraging activity in the ant *Cataglyphis velox*. **Journal of Evolutionary Biology**, **20**, 2228-2234.
27. Hora RR, Poteaux C, **Doms C**, Fresneau D, Fénéron R. 2007. Egg cannibalism in a facultative polygynous ant: conflict for reproduction or strategy to survive? **Ethology**, **113**, 909-916.
28. Clémencet J, **Doms C**. 2007. Habitat-related microgeographic variation of worker size and colony size in the ant *Cataglyphis cursor*. **Oecologia**, **152**, 211-218.
29. Zinck L, Jaisson P, Hora RR, Denis D, Poteaux C, **Doms C**. 2007. The role of breeding system on ant ecological dominance: genetic analysis of *Ectatomma tuberculatum*. **Behavioral Ecology**, **18**, 701-708.
30. André JB, Peeters C, Huet M, **Doms C**. 2006. Estimating the rate of gamergate turnover in the queenless ant *Diacamma cyaneiventre* using a maximum likelihood model. **Insectes Sociaux**, **53**, 233-244.
31. Hora RR, **Doms C**, Poteaux C, Fénéron R, Valenzuela J, Heinze J, Fresneau F. 2005. Small queens in the ant *Ectatomma tuberculatum*: a new case of social parasitism. **Behavioral Ecology and Sociobiology**, **59**, 285-292.
32. Clémencet J, Viginier B, **Doms C**. 2005. Hierarchical analysis of population genetic structure in the monogynous ant *Cataglyphis cursor* using microsatellite and mitochondrial DNA markers. **Molecular Ecology**, **14**, 3735-3744.
33. Percy M, Aron S, **Doms C**, Keller L. 2004. Conditional use of sex and parthenogenesis for worker and queen production in ants. **Science**, **306**, 1780-1783.
34. Percy M, Clémencet J, Chameron S, Aron S, **Doms C**. 2004. Characterization of nuclear DNA microsatellite markers in the ant *Cataglyphis cursor*. **Molecular Ecology Notes**, **4**, 642-644.
35. Viginier B, Peeters C, Brazier L, **Doms C**. 2004. Very low genetic variability in the Indian queenless ant *Diacamma indicum*. **Molecular Ecology**, **13**, 2095-2100.
36. Baudry E, Peeters C, Brazier L, Veuille M, **Doms C**. 2003. Shift in the behaviours regulating monogyny is associated with high genetic differentiation in the queenless ant *Diacamma ceylonense*. **Insectes Sociaux**, **50**, 390-397.

37. **Doums C**, Cabrera H, Peeters C. 2002. Population genetic structure and male-biased dispersal in the queenless ant *Diacamma cyaneiventre*. **Molecular Ecology**, 11, 2251-2264.
38. **Doums C**, Moret Y, Benelli E, Schmid-Hempel P. 2002. Senescence of immune defence in *Bombus* workers. **Ecological Entomology**, 27, 138-144.
39. Myskowiak JB, **Doums C**. 2002. Effects of refrigeration on the biometry and development of *Protophormia terraenovae* (Robineau-Desvoidy) (Diptera: Calliphoridae) and its consequences in estimating post-mortem interval in forensic investigations. **Forensic Science International**, 125, 254-261.
40. André JB, Peeters C, **Doums C**. 2001. Serial polygyny and colony genetic structure in the monogynous queenless ant *Diacamma cyaneiventre*. **Behavioral Ecology and Sociobiology**, 50, 72-80.
41. **Doums C**, Schmid-Hempel P. 2000. Immunocompetence in workers of a social insect, *Bombus terrestris* L., in relation to foraging activity and parasitic infection. **Canadian Journal of Zoology**, 78, 1060-1066.
42. **Doums C**. 1999. Characterization of microsatellite loci in the queenless Ponerine ant *Diacamma cyaneiventre*. **Molecular Ecology**, 8, 1957-1959.
43. Olsson M, Pagel M, Shine R, Madsen T, **Doums C**, Gullberg A, Tegelström H. 1999. Sperm choice and sperm competition: Suggestions for field and laboratory studies. **Oikos**, 84, 172-175.
44. **Doums C**, Perdieu MA, Jarne P. 1998. Resource allocation and stressful conditions in the aphyllid snail *Bulinus truncatus*. **Ecology**, 79, 720-733.
45. **Doums C**, Viard F, Jarne P. 1998. The evolution of phally polymorphism. **Biological Journal of the Linnean Society**, 64, 273-296.
46. Petrie M, **Doums C**, Moller AP. 1998. The degree of extra-pair paternity increases with genetic variability. **Proceedings of the National Academy of Sciences, USA**, 95, 9390-9395.
47. **Doums C**, Viard F, David P, Jarne P. 1997. Phally status and size in Niger populations of *Bulinus truncatus* (Gastropoda: Planorbidae). **Journal of Molluscan Studies**, 63, 111-115.
48. Viard F, **Doums C**, Jarne P. 1997. Selfing, sexual polymorphism and microsatellites in the hermaphroditic freshwater snail *Bulinus truncatus*. **Proceedings of the Royal Society of London, B**, 264, 39-44.
49. **Doums C**, Bremond P, Delay B, Jarne P. 1996. The genetical and environmental determination of phally polymorphism in the freshwater snail *Bulinus truncatus*. **Genetics**, 142, 217-225.
50. **Doums C**, Jarne P. 1996. The evolution of phally polymorphism in *Bulinus truncatus* (Gastropoda, Planorbidae): The cost of male function analysed through life-history traits and sex allocation. **Oecologia**, 106, 464-469.
51. **Doums C**, Labbo R, Jarne P. 1996. Stability and genetic basis of variability of phally polymorphism in natural populations of the self-fertile freshwater snail *Bulinus truncatus*. **Genetical Research**, 68, 23-33.
52. **Doums C**, Viard F, Pernot AF, Delay B, Jarne P. 1996. Inbreeding depression, neutral polymorphism, and copulatory behavior in freshwater snails: A self-fertilization syndrome. **Evolution**, 50, 1908-1918.
53. **Doums C**, Delay B, Jarne P. 1994. A problem with the estimate of self-fertilization depression in the hermaphrodite freshwater snail *Bulinus truncatus*: The effect of grouping. **Evolution**, 48, 498-504.
