

Publications

Peer-reviewed original publications

Besnier LS, Cardot P, Da Rocha B, Simon A, Loew D, Klein C, Riveau B, Lacasa M, Clair C, Rousset M, **Thenet S.** (2015) The cellular prion protein PrP^c is a partner of the Wnt pathway in intestinal epithelial cells. *Mol Biol Cell.* **26**:3313-28

Jung, C., Meinzer, U., Montcuquet, N., Thachil, E., Chateau, D., Thiébaud, R., Roy, M. Alnabhani, Z., Berrebi, D., Dussaillant, M., **Thenet, S.**, Cerf-Bensussan, N., Hugot, J.-P. and Barreau, F. (2012) Yersinia pseudotuberculosis alters the permeability of Peyer's patches by modulating IL-1 β expression and Myosin Light Chain Kinase function through TLR-2 signaling. *J. Clin. Invest.* **122**, 2239-51.

Petit, C.S.V., Barreau, F., Besnier, L., Gandille, P., Riveau, B., Château, D., Roy, M., Berrebi, D., Svrcek, M., Cardot, P., Rousset, M., Clair*, C. and **Thenet*, S.** (2012) Requirement of cellular prion protein for intestinal barrier function and mislocalization in patients with inflammatory bowel disease. *Gastroenterology*, **143**, 122-32.

Lugo-Martinez, V.H., Petit, C., Fouquet, S., Biscan, J. Chambaz, J., Pincon-Raymond, M., Cardot, P. and **Thenet S.** (2009) The activation of the epidermal growth factor receptor tyrosine kinase is involved in the dissociation of E-cadherin-mediated junctions in enterocytes undergoing anoikis. *Am J Physiol Gastrointest Liver Physiol.* **296**, G235-44

Morel, E., Fouquet, S., Strup-Perrot, C., Pichol-Thievend, C., Petit, C., Loew, D., Faussat, A.M., Yvernault, L., Pincon-Raymond, M., Chambaz, J., Rousset, M., **Thenet, S.** and Clair. C. (2008). The cellular prion protein PrP is involved in the proliferation of epithelial cells and in the distribution of junction-associated proteins. *PLoS ONE.* 3:e3000.

Peignon, G., **Thenet, S.**, Schreider, C., Fouquet, S., Ribeiro, A., Dussaulx, E., Chambaz, J., Cardot, P., Pincon-Raymond, M. and Le Beyec, J. (2006). E-cadherin-dependent transcriptional control of apolipoprotein A-IV gene expression in intestinal epithelial cells: a role for the hepatic nuclear factor 4. *J Biol Chem* **281**, 3560-8.

Fouquet, S., Lugo-Martinez, V. H., Faussat, A. M., Renaud, F., Cardot, P., Chambaz, J., Pincon-Raymond, M. and **Thenet, S.** (2004). Early loss of E-cadherin from cell-cell contacts is involved in the onset of Anoikis in enterocytes. *J Biol Chem* **279**, 43061-9.

Schreider, C., Peignon, G., **Thenet, S.** Chambaz, J. and Pincon-Raymond, M. (2002). Integrin-mediated functional polarization of Caco-2 cells through E-cadherin-actin complexes. *J Cell Sci* **115**, 543-52.

Steimberg, N., Viengchareun, S., Biehlmann, F., Guenal, I., Mignotte, B., Adolphe, M. and **Thenet, S.** (1999). SV40 large T antigen expression driven by col2a1 regulatory sequences immortalizes articular chondrocytes but does not allow stabilization of type II collagen expression. *Exp Cell Res* **249**, 248-59.

Lajemi, M., Demignot, S., Borge, L., **Thenet-Gauci, S.** and Adolphe, M. (1997). The use of Fluoresceincadaverine for detecting amine acceptor protein substrates accessible to active transglutaminase in living cells. *Histochem J* **29**, 593-606.

Viengchareun, S., **Thenet-Gauci, S.**, Steimberg, N., Blancher, C., Crisanti, P. and Adolphe, M. (1997). The transfection of rabbit articular chondrocytes is independent of their differentiation state. *In Vitro Cell Dev Biol Anim* **33**, 15-7.

Viengchareun, S., **Thenet-Gauci, S.**, Steimberg, N. and Adolphe, M. (1996) Transfection of rabbit articular chondrocytes by the calcium phosphate procedure : improvement of the efficiency and reproducibility. *Cytotechnology* **19**, 89-94.

Benoit, B., **Thenet-Gauci, S.**, Hoffschir, F., Penforinis, P., Demignot, S. and Adolphe, M. (1995). SV40 large T antigen immortalization of human articular chondrocytes. *In Vitro Cell Dev Biol Anim* **31**, 174-7.

Thenet, S., Benya, P. D., Demignot, S., Feunteun, J. and Adolphe, M. (1992). SV40-immortalization of rabbit articular chondrocytes: alteration of differentiated functions. *J Cell Physiol* **150**, 158-67.

Bravard, A., Beaumatin, J., Luccioni, C., Fritsch, P., Lefrancois, D., **Thenet, S.**, Adolphe, M. and Dutrillaux, B. (1992). Chromosomal, mitochondrial and metabolic alterations in SV40-transformed rabbit chondrocytes. *Carcinogenesis* **13**, 767-72.

Froger-Gaillard, B., Charrier, A. M., **Thenet, S.**, Ronot, X. and Adolphe, M. (1989). Growth-promoting effects of acidic and basic fibroblast growth factor on rabbit articular chondrocytes aging in culture. *Exp Cell Res* **183**, 388-98.

Thenet, S., Morvan, F., Bertrand, J. R., Gautie, C. and Malvy, C. (1988). Alpha are more stable than beta anomer oligonucleotides in 3T3 cellular extracts. *Biochimie* **70**, 1729-32.

Morvan, F., Rayner, B., Imbach, J. L., **Thenet, S.**, Bertrand, J. R., Paoletti, J., Malvy, C. and Paoletti, C. (1987). alpha-DNA II. Synthesis of unnatural alpha-anomeric oligodeoxyribonucleotides containing the four usual bases and study of their substrate activities for nucleases. *Nucleic Acids Res* **15**, 3421-37.

Gagnor, C., Bertrand, J. R., **Thenet, S.**, Lemaitre, M., Morvan, F., Rayner, B., Malvy, C., Lebleu, B., Imbach, J. L. and Paoletti, C. (1987). alpha-DNA. VI: Comparative study of alpha- and beta-anomeric oligodeoxyribonucleotides in hybridization to mRNA and in cell free translation inhibition. *Nucleic Acids Res* **15**, 10419-36.

Invited Reviews

C. Petit, L. Besnier, E. Morel, M. Rousset, **S. Thenet** (2013) Roles of the cellular prion protein in the regulation of cell adhesion, cell-cell junctions and barrier function. *Tissue barriers* **1**: e24377-1-10
